EPA Region 10 and NOAA set up a kick off meeting on June 2 with Oregon DEQ, ODA, and DLCD to share information about how Oregon's agricultural program addresses the CZARA agricultural management measures, discuss concerns raised by the public and learn more about what the state is doing or planning on doing to address these concerns. This meeting will be the beginning of an effort for the state and federal agencies to work together to ensure the adequacy of Oregon's agriculture programs and policies for meeting the 6217(g) agriculture management measures and conditions placed on Oregon's Coastal Nonpoint Program, including exploring what actions might be needed in order to address any gaps.
